I am currently an Assistant Professor of Biomedical Engineering in the Whiting School of Engineering at Johns Hopkins University, where I co-direct the [NeuroData](http://NeuroData.io) lab, whose mission is to flourish together by extending and fusing statistical machine learning and big data science to address the most important brain science and mental health questions of our time. As of October 2018, according to [Google Scholar](https://scholar.google.com/citations?user=jovo), I have over 3,700 citations and an h-index of 27.

Our website, neurodata.io, has the most up to date information regarding our team's [publications](#), [talks](#), [posters](#), [awards](#), [press](#), [funding](#), and [blog](#).
